Learning from Home and School - Program of Activities and Tasks

25th March 2020

Dear Parents and Caregivers

Thank you for your patience over the last two days as our teachers have developed and prepared parallel activities and learning experiences for your child(ren). These activities have been designed so that they can be completed at home or school. There may be a few minor differences in the resources being used, but all children will be covering the same content as their peers whether they are learning from home or from school.

I am pleased to inform you that learning activities for your child(ren) are now available from the following landing page website:

<https://sites.google.com/education.nsw.gov.au/lppsonline>

If you have no access to the Internet, you may collect a paper copy of the learning activities from the office. Please call our office ladies in advance to let them know you will be coming.

Currently the teaching and learning activities are for the remainder of this week. We will upload each week's learning activities on Monday morning.

Please look after each other and offer support where needed.

Regards

Leigh Bade – Principal
